BY ROBONATION

**24 TEAMS**  
**FROM 4 CONTINENTS**

*Competing in Person & Online*

**19 ASVs**

**AUTONOMOUS SURFACE VEHICLES**

*Autonomy isn't just for cars...*

**2023 ROBOBOAT COMPETITION: OCEAN EXPLORATION**  
NATHAN BENDERSON PARK | SARASOTA, FLORIDA

## What is RoboBoat?

RoboBoat is an **international** competition where students design, build, and compete with **self-driving** robotic boats, known as ASVs, in a series of tests aimed at **challenging** teams in a variety of **autonomous** tasks.

RoboBoats are built by students and powered by ingenuity.

## Why RoboBoat?

Autonomous technology is integral to the maritime industry. From coastal security to port efficiency, RoboBoat is building the workforce of tomorrow.

RoboBoat fosters community, cultivates connections, and brings the knowledge from classrooms into the real world.

## The Core of RoboBoat
