Community & Outreach
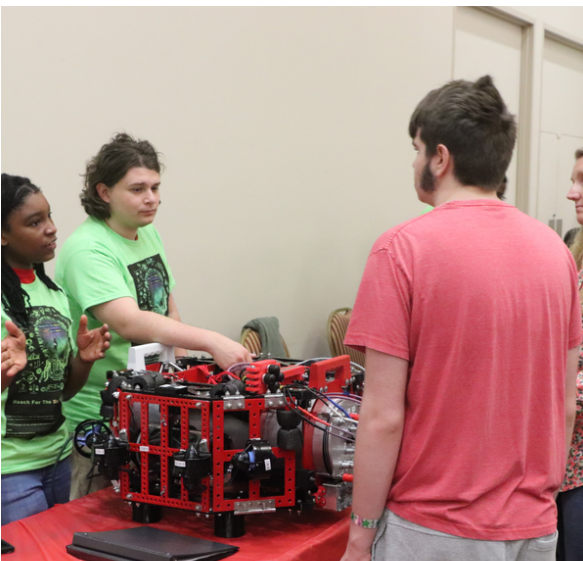

Kids Code Marbles Kids Musuem

November 19th, 2022

Event hosted by Marbles Kids Museum to encourage children to get involved with coding. We were a booth at this event and had the opportunity to show children and parents our robot, let them fire our torpedo and dropper systems, and 3D print mini wolves to handout.

NC Space Symposium

April 21st , 2023

Research symposium hosted by the NASA NC Space Grant program where students and engineering design teams can display posters and discuss their work/research.

Reach for the Stars! You're A Star!

April 22nd, 2023

Event hosted by the Catalyst in the College of Sciences at NC State University. This was an event for K-12 students with disabilities and interested in STEM. We were a booth at this event and had the opportunity to discuss robotics and engineering career and education paths for students.

Industry Partners Program

February 27th , 2023

A program we created to bridge the gap between employers and our students. Opportunity for our members and other engineers on campus to connect with companies and potential get job or internship opportunities.

Other Community and Outreach Activites

- NCSU Wolfpack Welcome Week
- NCSU Open House
- Cary FIRST Tech Challenge State Competition Advisement Session
- NCSSM Underwater Robotics Club Development
- DefTech Talk
- and many more!
