Community & Outreach Submission

A key objective of the RoboSub program is to strengthen and enhance the community. Teams are encouraged to participate in educational outreach activities and describe those activities here.

Maximum 500 words

Community & Outreach Description:

Members of Desert WAVE help other do Toy Hacks for special needs kids! Two of the Desert WAVE Team members helped set up a website to teach other how to hack toys for special needs kids. The team had conducted several of these toy hacks in the past and they wanted others to be able to do the same.
