SEAPERCH.ORG

Welcome SeaPerchers,

Congratulations on earning a spot at the 2024 International SeaPerch Challenge!

The 14th International SeaPerch Challenge brings together the 174 top-performing teams from around the world. Pause for a moment to recognize the significance of representing your team, school, and community this weekend. You and your team bring distinct qualities to make up this community of exceptional roboticists-in-training.

During your time here at the Challenge, we can't wait to see how you apply your creativity in designing your ROVs, ideating real world challenges, presenting your experiences to your peers and our community, and applying Science, Technology, Engineering, and Mathematics (STEM) throughout your experience.

But of course, no accomplished person is ever alone in their journey. We would like to recognize the parents, teachers, administrators, coaches, mentors, volunteers, and SeaPerch regional advocates – who devote time, energy, and care in mentoring and supporting all of you. We are grateful for the countless hours they have dedicated to you.

We know that all of you will have a memorable experience at this year's SeaPerch Challenge. We encourage you to learn as much as you can, connect with each other, be courageous, motivate one another, and most importantly – have fun!

As a nonprofit organization, our vision is a world where technology unites people to learn, share, and create. This weekend is a time for these connections to take place and for all of us to learn from each other and to celebrate what you have accomplished this season with your creations.

We wish you the best of luck today and in all your future endeavors. We are honored to be a part of your journey.

From,
The RoboNation Staff

THANK YOU TO OUR COMMUNITY

The SeaPerch program thrives thanks to the support of our sponsors, partners, volunteers, regional advocates, and educators. We deeply appreciate the commitment and contributions that fuel our shared goals and are integral to our success.

**Make sure to say THANK
YOU to all our volunteers
in blue shirts.**

SPONSORS & PARTNERS

NOAA OECI & NOAA OCEAN EXPLORATION

The Ocean Exploration Cooperative Institute (OECI) is a unique consortium of top oceanographic institutions—several graduate degree-granting institutions, an ocean exploration non-profit, and task-specific affiliates. They work as one to advance the core priorities of NOAA Ocean Exploration. Put simply, the OECI is uncovering the potential benefits our ocean has to offer.

HYDRONALIX

Hydronalix is a small high technology company specializing in extreme performance, small unmanned vehicles, both for water and air. Founded in 2009, the company has grown to be internationally recognized as the world leader in robotic water rescue systems and advanced small unmanned surface vehicles.

SOLIDWORKS

Dassault Systèmes, the 3DEXPERIENCE Company, is a catalyst for human progress. We provide business and people with collaborative virtual environments to imagine sustainable innovations.

OFFICE OF NAVAL RESEARCH (ONR)

ONR is the catalyst of future naval power, ensuring technological dominance for our fleet and force. With a workforce that includes some of the top PhDs and engineers in the world in their fields, ONR finds the best minds from across the nation and around the globe, sponsoring new research and creating new capabilities for America's Sailors and Marines.

MATHWORKS

MathWorks is the leading developer of mathematical computing software. Engineers and scientists worldwide rely on its products, including MATLAB and Simulink, to accelerate the pace of discovery, innovation, and development.

ONSHAPE

Onshape is a next-generation SaaS design platform that speeds up product development. It's an all-in-one system that combines CAD, release management, workflow, collaboration, analytics, admin tools, and an API with more than 50 engineering applications. Onshape helps extended design teams work together faster and helps executives make better business decisions with real-time analytics and unprecedented visibility into their company's design and manufacturing processes.

DoD STEM

Science, Technology, Engineering and Mathematics, or STEM, is the gateway to a world of wonder. U.S. Department of Defense (DoD) STEM professionals work at the leading edge of our nation's most advanced technological breakthroughs. STEM is our future.

BLUE ROBOTICS

Blue Robotics makes low-cost, high-performance components for marine robotics to enable the next generation of ocean exploration! Based in Torrance, CA, they are a young and innovative company with a diverse and international customer base.

UNIVERSITY OF MARYLAND & MARYLAND ROBOTICS CENTER

The University of Maryland, College Park is the state's flagship university and one of the nation's preeminent public research universities. The Maryland Robotics Center is an interdisciplinary research center. The mission of the center is to advance robotic systems, underlying component technologies, and applications of robotics through research and educational programs that are interdisciplinary in nature and based on a systems approach.

**If you are interested in learning more
about sponsorship or partnership
opportunities, contact Alicia Gavin at
agavin@robation.org**

NOAA: OECI

The Ocean Exploration Cooperative Institute (OECI) is a unique consortium of top oceanographic institutions—several graduate degree-granting institutions, an ocean exploration non-profit, and task-specific affiliates. They work as one to advance the core priorities of NOAA Ocean Exploration. Put simply, the OECI is uncovering the potential benefits our ocean has to offer.

The OECI's mission is to explore, map, and characterize the nation's vast ocean territory, to develop and implement new technologies, and to engage future generations of ocean scientists, engineers, and stakeholders.

OCEAN EXPLORATION COOPERATIVE INSTITUTE

EXPLORING THE NATION'S BLUE FRONTIER

OCEAN
EXPLORATION

2024 SIGNATURE SPONSOR

EDUCATION & OUTREACH

The OECI brings together high-caliber, multidisciplinary expertise to engage beyond our individual institutions on priority issues facing our ocean.

In addition to meeting key exploration benchmarks, OECI activities are intended to inspire the next generation of ocean explorers, scientists and engineers; educate students about ocean exploration; increase opportunities for individuals from under-represented groups; and encourage university students and early career professionals to participate in ocean exploration activities.

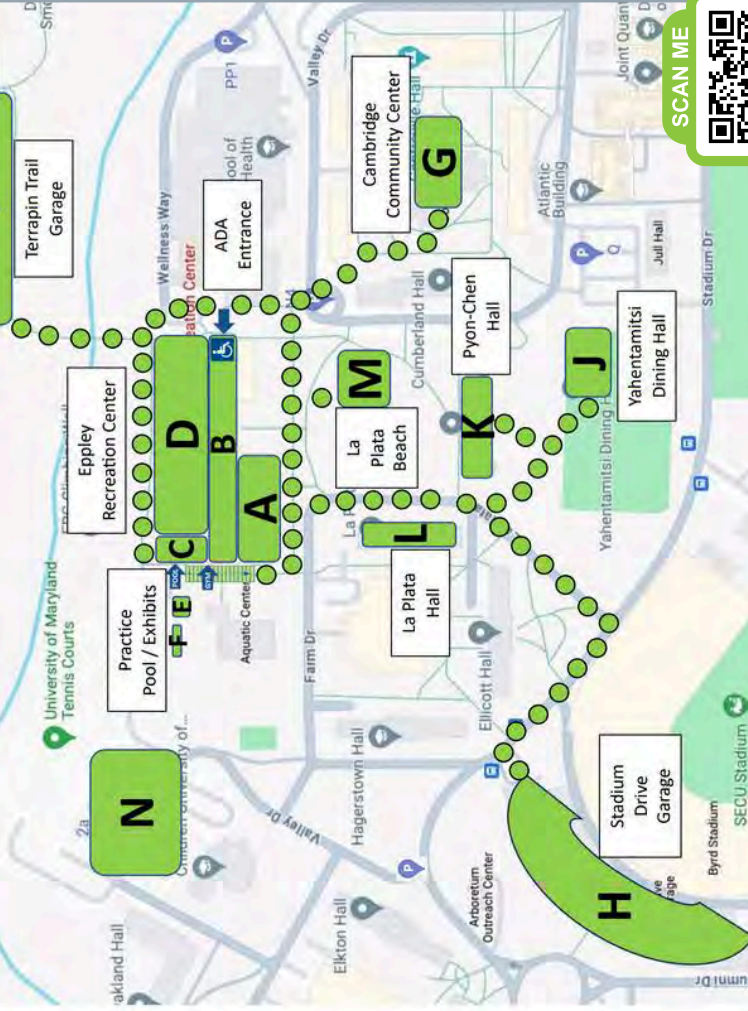

OECI institutions place a high priority on engaging with the public, K-12, undergraduate, and graduate student populations, as well as other stakeholders to facilitate and augment research efforts and broaden the reach of research results to local, national, and global scientific and non-scientific communities.

KEY

- A. CHECK-IN / TEAM VILLAGE – Eppley West Gym (*Upper Level*)
- B. SPECTATOR SEATING (*Upper Level*)
- C. POOL CHECK-IN / TRIAGE - (*Lower Level*)
- D. COMPETITION POOL - (*Lower Level*)
- E. PRACTICE POOL - (*Lower Level*)
- F. OUTDOOR EXHIBITS – (*Lower Level*)
- G. TEAM PRESENTATIONS – Cambridge Community Center 1100, 1111, 1205
- H. PARKING (FRIDAY) – Stadium Drive Garage
- I. PARKING (SATURDAY) – Terrapin Trail Garage
- J. DINING - Yahentamitsi Dining Hall
- K. DORM – Pyon-Chen Hall
- L. DORM – La Plata Hall
- M. AWARDS – La Plata Beach
- N. STAFF PARKING – Lot 2A

Pool Check-In

POOL CHECK IN - FRIDAY

TEAMS MUST CHECK-IN AT THE POOL ENTRANCE WITH THEIR ASSIGNED GROUP AT THE TIME LISTED ON THEIR TEAM PACKET.

1:00 pm (estimated group start time: 1:30 pm)	Group 1
1:45 pm (estimated group start time: 2:15 pm)	Group 2
2:45 pm (estimated group start time: 3:15 pm)	Group 3
3:30 pm (estimated group start time: 4:00pm)	Group 4

POOL CHECK IN - SATURDAY

TEAMS MUST CHECK-IN AT THE POOL ENTRANCE WITH THEIR ASSIGNED GROUP AT THE TIME LISTED ON THEIR TEAM PACKET.

8:30 am (estimated group start time: 9:00 am)	Group 5
9:15 am (estimated group start time: 9:45 am)	Group 6
10:15 am (estimated group start time: 10:45 am)	Group 7
11:00 am (estimated group start time: 11:30 am)	Group 8
12:45 pm (estimated group start time: 1:15 pm)	Group 9
1:00 pm (estimated group start time: 1:35 pm)	Group 10
1:45 pm (estimated group start time: 2:15 pm)	Group 11
2:45 pm (estimated group start time: 3:15 pm)	Group 12

DIGITAL SCHEDULE

Deep Sea Exploration

With NOAA: Ocean
Exploration
Cooperative Institute

2024 Theme: Deep Sea Exploration

We're diving into the perilous and enigmatic world of Deep Sea Exploration and hydrothermal vents! Exploration is key to increasing our understanding of the ocean, so we can more effectively manage, conserve, regulate, and use ocean resources that are vital to all of our lives. The International SeaPerch Challenge offers students a unique opportunity to delve into the world of maritime technology and witness firsthand how scientists employ it to tackle real-world challenges.

ROV Fun Facts

Remotely Operated Vehicles (ROVs) have enabled scientists to conduct research at depths previously thought unreachable, unlocking a trove of discoveries.

ROVs were first tested in the 1960's by the U.S. Navy to retrieve sunken data. In 1966, the Navy successfully recovered an atomic bomb that went missing off the coast of Spain.

ROVs can be the size of a small computer or as large as a small truck. Larger ROVs are very heavy and need special equipment to deploy them off of a ship and into the ocean.

While ROVs are controlled via a remote and tether by humans, AUVs (Autonomous Underwater Vehicles) drive themselves, following pre-programmed instructions. This autonomy allows AUVs to explore vast areas of the ocean with minimal human intervention, making them ideal for mapping and surveying tasks. Ready for the next step in maritime robotics and want to build an AUV? Visit robosub.org

Hydrothermal Vents

Hydrothermal vents
form at locations
where seawater
meets magma.

These subaquatic chimneys, spewing forth mineral-rich fluids at extreme temperatures, have long intrigued scientists and explorers alike. The discovery of these vents in 1977, during the Galapagos Rift expedition, marked a pivotal moment in our understanding of deep-sea ecosystems. ROVs have revolutionized our ability to study these extreme environments with greater precision and safety. Equipped with high-definition cameras and sampling tools, they allow researchers to navigate the intricate terrain around hydrothermal vents, unveiling a world teeming with bizarre creatures and geological formations.

Hydrothermal vents are the result of seawater percolating down through fissures in the ocean crust in the vicinity of spreading centers or subduction zones (places on Earth where two tectonic plates move away or towards one another). The cold seawater is heated by hot magma and reemerges to form the vents. Seawater in hydrothermal vents may reach temperatures of over 700° Fahrenheit.

AWARDS

Middle School Class

- Class Champion
- Obstacle Course
 - 1st, 2nd, 3rd
- Mission Course
 - 1st, 2nd, 3rd
- Technical Design Report
 - 1st, 2nd, 3rd

High School Class

- Class Champion
- Obstacle Course
 - 1st, 2nd, 3rd
- Mission Course
 - 1st, 2nd, 3rd
- Technical Design Report
 - 1st, 2nd, 3rd

Open Class

- Class Champion
- Obstacle Course
 - 1st, 2nd, 3rd
- Mission Course
 - 1st, 2nd, 3rd
- Technical Design Report
 - 1st, 2nd, 3rd

Special Awards

- Community & Outreach
- Sportsmanship
- Resiliency & Grit
- Ingenuity
- Real-World Innovation
 - 1st, 2nd, 3rd
- Fan Favorite - Real World Innovation
 - Middle School
 - High School

THE 2024 COMPETITION

POOL COURSES

Teams have 20 minutes total to complete pool courses.

Obstacle Course:

The Obstacle Course tests high-speed maneuverability and requires the SeaPerch ROV to navigate the course as quickly as possible.

- Teams may attempt up to two (2) runs.
- Each run is limited to four (4) minutes maximum.

Mission Tasks:

This course simulates the tasks and environment that an ROV might encounter while exploring the harsh environments that surround hydrothermal vents.

- Teams may attempt one (1) run.
- The mission course time limit is eight (8) minutes maximum.

OTHER COMPETITION ELEMENTS

Technical Design Report

(Required)

A Technical Design Report (TDR) succinctly describes a team's unique SeaPerch ROV and the engineering design process, providing insight into the iterative design process and allowing for data analysis that supports the final ROV design.

Community Outreach Project

(Optional)

Whether teams volunteer their time in their community, or teams find a way to connect and offer support online, teams have the opportunity to highlight their outreach efforts.

Team Presentations

(By Invitation - Optional - Not Scored)

Presentations are a great opportunity for teams to share their SeaPerch experience and practice their academic presentation skills. Seventy-one teams were selected to present based on a short abstract the team submitted that provided a high-level overview of what their presentation would cover.

Real-World Innovation Poster

(Optional)

Teams are invited to identify a real-world issue and design a SeaPerch ROV to address the issue. To present their project, teams will create a virtual poster. These posters may include anything from a conceptual design to a full project conducted in the real world.

2024 TEAMS

OPEN CLASS

- Academic Magnet High School | AMHS H2Go (532) | North Charleston, South Carolina, USA 🇺🇸
- The American Baccalaureate School, Wildcats Engineering (030) | Kuwait, Kuwait 🇰🇼
- Castle High School | ProtoKnights 1 (902) | Kaneohe | Hawaii, USA 🇺🇸
- Castle High School | ProtoKnights 2 (904) | Kaneohe | Hawaii, USA 🇺🇸
- Clinton High School | Ocean Perch Clinton (408) | Michigan, USA 🇺🇸
- Grant County 4-H | Aquanauts (528) | Sheridan, Arkansas, USA 🇺🇸
- Lacey Township High School | Diplodocus Divers (207) | Lanoka Harbor, New Jersey, USA 🇺🇸
- Margaret Brent Elementary School (313) | S.C.U.D Stafford | Virginia, USA 🇺🇸
- Mayport Coastal Sciences Middle School | Mayport Stingrays (728) | Atlantic Beach, Florida, USA 🇺🇸
- Mayport Coastal Sciences Middle School | The Strawfish Pirates (520) | Atlantic Beach, Florida, USA 🇺🇸
- Naselle Grays-River High School | Naselle Bubble Heads (911) | Naselle, Washington, USA 🇺🇸
- New Bern High School | TarHeels (301) | New Bern | North Carolina, USA 🇺🇸
- Oak Grove High School | Wet Warriors (523) | Hattiesburg, Mississippi, USA 🇺🇸
- Orion Jr High | Terentatek (803) | Ogden, Utah, USA 🇺🇸
- Orion Jr High | Tide Pods (802) | Ogden, Utah, USA 🇺🇸
- Patriot High School, Killer Krabs (004) | Nokesville, Virginia, USA 🇺🇸
- San Bernardino High School | SBHS Johnny Cardinal (910) | San Bernardino, California, USA 🇺🇸
- San Gabriel School for the Deaf, Water Flash (101) | San Juan, Puerto Rico 🇵🇷
- ShadowCreek High School | Liopleurodons (713) | Pearland, Texas, USA 🇺🇸
- Spanish River High School | Sharktastics! (502) | Boca Raton, Florida, USA 🇺🇸
- STEM-UP Program @ Temple University (213) | Philadelphia, Pennsylvania, USA 🇺🇸
- Troy High School | NJROTC | Water Wizards (905) | Fullerton, California, USA 🇺🇸
- Troy High School NJROTC | Water Wiggles (916) | Fullerton, California, USA 🇺🇸
- Union League Boys and Girls Clubs Dolphins (412) | Chicago, Illinois, USA 🇺🇸
- U.S Naval Sea Cadet Corps | Hydro Homies (925) | San Diego, California, USA 🇺🇸
- U.S. Naval Sea Cadet Corps | Yellowjackets (923) | Rancho Cucamonga, California, USA 🇺🇸
- West Mesa High School | WMHS 2-4 (715) | Albuquerque, New Mexico, USA 🇺🇸
- Wahkiakum High School | Mecha Mules: Bermuda (912) | Cathlamet, Washington, USA 🇺🇸

The 2024 International SeaPerch Challenge would not have been possible without support from the broader SeaPerch Community including regional coordinators, local advocates, parents, and educators, onsite volunteers, virtual volunteers, sponsors and partners.

- 1st Annual Vanguard Academy Aquatic Triathlon - Pharr, TX, USA 🇺🇸
- 2024 Great Southwest SeaPerch Challenge - Albuquerque, NM, USA 🇺🇸
- 2024 Houston-Galveston SeaPerch Challenge - Galveston, TX, USA 🇺🇸
- 2024 SeaPerch Macao Regional Competition - Macao 🇲🇴
- Alvin ISD District Meet - Alvin, TX, USA 🇺🇸
- Arkansas 4-H SeaPerch Challenge - Little Rock, AR, USA 🇺🇸
- Big Bend of Florida Regional Competition - Tallahassee, FL, USA 🇺🇸
- CTEEA/Waterford High School Connecticut SeaPerch championship - Waterford, CT, USA 🇺🇸
- Cathlamet SeaPerch Qualifier 2024 - Cathlamet, WA, USA 🇺🇸
- Central Region 4-H SeaPerch Challenge - Alexandria, LA, USA 🇺🇸
- Charleston Challenge - North Charleston, SC, USA 🇺🇸
- Charles County MD Regional - Waldorf, MD, USA 🇺🇸
- China SeaPerch 2024 - Beijing, China 🇨🇳
- CT/NY Regional SeaPerch Competition - Neptune, NJ, USA 🇺🇸
- Deaf/HH SeaPerch Challenge - Simsbury, CT, USA 🇺🇸
- Discovery Canyon High School Competition - Colorado Springs, CO, USA 🇺🇸
- Discovery Canyon Middle School Competition - Colorado Springs, CO, USA 🇺🇸
- Eastern Idaho Regional Competition - Idaho Falls, ID, USA 🇺🇸
- FPL BrowardSTEM SeaPerch Competition - Davie, FL, USA 🇺🇸
- FPL TCI SeaPerch Invitational #1 - Boca Raton, FL, USA 🇺🇸
- FPL TCI SeaPerch Invitational #2 - Boca Raton, FL, USA 🇺🇸
- GISD Regional SeaPerch Competition - Georgetown, TX, USA 🇺🇸
- Greater Jacksonville SeaPerch Challenge - Jacksonville, FL, USA 🇺🇸
- Greater Philadelphia SeaPerch Challenge - High School Division - Philadelphia, PA, USA 🇺🇸
- Greater Philadelphia SeaPerch Challenge - Middle School Division - Philadelphia, PA, USA 🇺🇸
- Highland Prep Academy SeaPerch Regional - Surprise, AZ, USA 🇺🇸
- Honolulu SeaPerch 2024 Regional - Honolulu, HI, USA 🇺🇸
- Illinois TSA 2024 SeaPerch Competition - Bloomington, IL, USA 🇺🇸
- Inland Empire Regional SeaPerch Competition - Riverside, CA, USA 🇺🇸
- Intermountain SeaPerch Challenge - Ogden, UT, USA 🇺🇸
- Lake Mary High School SeaPerch - Lake Mary, FL, USA 🇺🇸
- LATAM Competition - Lima, Perú 🇵🇪
- Los Angeles Regional SeaPerch Competition - Fullerton, CA, USA 🇺🇸
- Louisiana SeaPerch Competition - Baton Rouge, LA, USA 🇺🇸
- Maryland Regional SeaPerch Challenge - Annapolis, MD, USA 🇺🇸
- Mass Bay Sea Cadets SeaPerch Competition - Cambridge, MA, USA 🇺🇸
- Michigan Regional SeaPerch Challenge - Clinton, MI, USA 🇺🇸
- Mississippi Gulf Coast Regional SeaPerch Challenge - Biloxi, MS, USA 🇺🇸
- MMI Challenge - Marion, AL, USA 🇺🇸
- Naarm/Melbourne Cup - Officer VIC, Australia 🇦🇺
- NAVY TALENT ACQUISITION GROUP HOUSTON SEAPERCH - Houston, TX, USA 🇺🇸
- Navy Great Lakes Regional SeaPerch Competition - Lake Forest, IL, USA 🇺🇸
- North Carolina Regional SeaPerch Competition - New Bern, NC, USA 🇺🇸
- North Coast Marine Manufacturing Alliance's SeaPerch Regional Competition - Ashwaubenon, WI, USA 🇺🇸
- Northland Te Taitokerau - Whangārei, New Zealand 🇳🇿

ROBONATION

PROGRAMS

seaperch.

SeaPerch

Underwater ROV program and competition for K-12 students and those beginning their robotics journey.

seaglide.

SeaGlide

Underwater glider kit to build a non-tethered robot

robosub

RoboSub

Autonomous Underwater Vehicle (AUV) competition for high school and postsecondary school students.

roboboat

RoboBoat

Autonomous Surface Vehicle (ASV) competition for high school and postsecondary students.

IGVC

Autonomous ground vehicle competition for postsecondary teams.

SUAS

Autonomous aerial competition for high school and postsecondary students.

IARC

Aerial robotics competition that challenges postsecondary students with an impossible mission.

robotx

Virtual RobotX (VRX)

Open-source simulation environment and competition centered around the RobotX vehicle.

vperch

VPerch

Virtual robotics program building on tools and skills from SeaPerch.

gosense

GoSense

Environmental sensing program and kits for use in real-world projects.
Coming in early 2025.

robotx

RobotX

Starting with a common platform, students develop a multi-domain Autonomous Maritime System (AMS) promoting advanced ocean exploration and research.

MARITIME

Imagine an extra large SeaPerch that thinks for itself...welcome to RoboSub. If you're ready to dive back under water and switch to autonomous mode, visit robosub.org to learn how to take the next step.

GROUND

Fancy yourself a surfer? Try out RoboBoat. This Autonomous Surface Vehicle Competition challenges you to build a self-driving boat. Visit roboboat.org to learn more.

AERIAL

VIRTUAL

SENSING

MULTI-DOMAIN

Maybe you're ready to soar like a bird...no, a super hero...no, a plane! At SUAS, your team builds an unmanned aerial vehicle (UAV), with the design choice between a fixed wing or multirotor. To learn more, visit suas-competition.org

robonation.org

seaperch Bingo

Get to know your fellow SeaPerch teams by playing bingo! Visit **other teams** and find somebody who meets the prompts. Have the team sign their **team name** on the prompt. Bring your completed bingo card by the RoboNation booth on Friday or Saturday to be entered into a drawing to win a special prize. Winner to be announced at the Awards Ceremony on Saturday afternoon. **Must be present at the Awards Ceremony to win.**

Team:

FIND SOMEONE WHO...

Has the
letter "X" in
their name

Wants to be a
marine
biologist

Likes to
read

Wants to
become a
naval
architect

Can say at
least 10
numbers in π
(Hint: It's hidden in
the program 🐡)

Knows how
to skate
board

Is the
driver of
their
team's ROV

Knows the
entire Periodic
Table of
Elements

Lives in a
different
country than
you

Has been to the
International
SeaPerch
Challenge
before

Is graduating
middle
school or
high school
this year

Traveled
more than
250 miles
to get here

FREE
SPACE

Can play a
musical
instrument

Plays a team
sport

Speaks more
than one
language

Wants to go to
trade school or
do an
apprenticeship
after graduation

Has been
on a ship or
boat

If you've
visited the
RobotX or
RoboSub team

Has a
birthday this
month

Is left-handed

Has been in
a school play
or musical

Wants to
be an
engineer

Has a pet
(cat, dog, horse,
lizard, etc)

Can code

seaglide™

Win a kit!

DRAW YOUR OWN seaperch

Tag @robonation on Instagram to have your
drawing featured on our stories!

TAG @ROBONATION!

CROSSWORD PUZZLE

ACROSS

3. T in STEM
6. Quantity of continents represented at the 2024 International SeaPerch Challenge.
7. Next level SeaPerch.
8. Process used for joining metal parts to form a mechanical or electrical bond.
10. Name of the UMD dining hall.
12. Apprenticeship program with DoN labs.
14. UMD Mascot
17. Hands on ROV mover.
18. You get two runs on this course.
19. ROVs were first tested by them.

DOWN

1. Quick fix station for ROVs on the pool deck.
2. A remotely operated vehicle.
3. Makes ROV move.
4. Mechanical device with revolving shaft and two or more broad blades.
5. SeaPerch is one of this organization's 9 programs.
9. Self-driving
11. Your uncrewed submarine.
13. Abbreviation of "polyvinyl chloride."
15. ____ OECl
16. Hydrothermal vents form at locations where sea water meets ____.

DID YOU KNOW?

Your SeaPerch uses a CAT 5 Ethernet Cable to transmit power & control your vehicle. Below, the eight-kilometer-long steel cable that connects remotely operated vehicle Seirios with NOAA Ship Okeanos Explorer. This tether, which is unspooled from a storage drum within the ship, brings electrical power & signals to the while returning live video feeds to the ship.

COLORING PAGE

Vents Coloring Page

Hydrothermal vents form in volcanically active, divergent and convergent plate boundaries when water enters deep cracks in the seafloor and rises out superheated, powering ecosystems in the darkness.

Hot water dissolves minerals like copper, zinc, cobalt, and gold out of the rocks and spews this dark 'smoke' as it rises from the chimneys.

Tubeworms are invertebrates growing over 13 feet long! They have the superpower to turn chemical compounds into food – chemosynthesis – with the help of bacteria in their body.

Crabs are a top predator and scavenger in this ecosystem.

HOW FAR DOES LIGHT TRAVEL IN THE OCEAN?

Light may be detected as far as 1,000 meters down in the ocean. The ocean is divided into three zones based on depth and light level.

Although some sea creatures depend on light to live, others can do without it.

‘Photic’ is a derivative of ‘photon,’ the word for a particle of light.

Can you place all the sea creatures from the STICKER SHEET at the right sea level?

SEA LEVEL

EUPHOTIC ZONE

(Sunlight)

Sunlight rarely penetrates beyond this zone.

Corals, Hammerhead Shark, Jellyfish, Sea Anemone, Sea Urchin, Sea Turtle, Sting Rays, Tuna Fish

200 METERS

DYSPHOTIC ZONE

(Twilight)

Sunlight decreases rapidly with depth. Photosynthesis is not possible here.

Crabs, Octopus, Shrimp, Spiny Whales, Sponges, Swordfish

1000 METERS & BELOW

APHOTIC ZONE

(The Dark Ocean)

Sunlight does not penetrate. This zone is bathed in darkness.

Anemone, Angler Fish, Brittle Star, Giant Squid, Gulper Eel, Ratfish, Tripod Fish
