

David G. Ouellet Division

U.S. Naval Sea Cadet Corps

- High School Stock Class
- Over 6 Years SeaPerch Building Experience
- 2nd Time Competing in International Challenge
- Our SeaPerch is unique because we have continuously made improvements each year to better complete its success
- Our biggest takeaway this season is that you are never out of the fight. As long as you continue to work hard, you will be rewarded with great opportunities.

Design Overview

Our SeaPerch is equipped for speed, maneuverability and power. The wide displacement of the motors allow for quick rotations of the ROV to quickly orientate itself for the next task at hand. Equipped with custom 3D printed specialized hook and motor mounts to stabilize the motors as they speed up.
