Location: Kuwait

Team Participants:

Abdulrahman Al-Terkait – Mechanical Engineer

Abdulaziz Al-Houlan– Mechanical Engineer

Abdulaziz Al-Awadhi – Electrical Engineer

Rashed Al-Shebly – Software Engineer

Competition class: Open class

Overview: The ABS Wildcats are excited to embark on a new journey into the Seaperch Open Class Competition. The Wildcats performed last year through the high school category and have accomplished to qualify to the finals. The ABS Wildcats have invested more time and commitment to fix any mistakes previously made through the high school class and are ready to qualify for the finals once again.

The ABS Wildcats have competed in the Seaperch for one year, and this will be the Wildcat's second year in the competition. Our Seaperch is unique due to our streamline body shape using PETG material. Our biggest takeaway this season would be learning how to work with technical skills, as well as learning how to communicate with one another under pressure.
